Verification of conformity

This is to verify Eneron Online v. 1.3, audited on 10th of April 2014, is applicable as a service platform when managing energy use and energy efficiency in real estates and it may enable companies to fulfill the criteria of the standard ISO 50001: 2011 Energy Management Systems requirements:

- Develop a policy for more efficient use of energy
- Fix targets and objectives to meet the policy
- Use data to better understand and make decisions concerning energy use and consumption
- Measure the results
- Review the effectiveness of the policy
- Continually improve energy management.

What is mentioned above about the qualifications of Eneron Online regarding ISO 50001:2011 may also be applied to the standard ISO 14001:2004, Environmental Management Systems, when applied to the management of energy use.

For the sake of clarity the company shall in order to achieve certification based on ISO 50001:2011 apply that separately from an accredited certification body.

11th of April 2014
